About

Global Human Capital Summit 2023

The Global Human Capital Summit is the flagship event of GIPA, held annually in **August**. This summit brings together professionals and thought leaders to explore how Indonesia's diaspora community can promote the nation's sovereignty, drive progress, and contribute to the vision of **Indonesia Emas 2045**.

The 2023 Summit is the second consecutive Global Human Capital Summit. Last year, the event aimed to support Indonesia's role as host of ASEAN Chairmanship 2023, with the theme **"Shaping Talents of the Future for a Resilient and Innovative ASEAN."**

Supported by the Ministry of Foreign Affairs and the ASEAN Business Advisory Council, the Summit stands as a platform to address the most pertinent concerns within an increasingly digitized workforce, while concurrently nurturing the advancement of Indonesian expertise across the **green, health, and technology sectors**.

With an attendance of over **800 global business leaders, government officials, and thought-leaders** from Indonesia's overseas professional hubs, this event cemented its significance as a place for insightful dialogue and collaboration.

Held at The Westin hotel, the 2023 Summit was inaugurated by some of the most distinguished leaders of Southeast Asia including Dr. Kao Kim Hourn (Secretary General of ASEAN), Mr. Dharsono Hartono (Chairman of KADIN Indonesia Net Zero Hub), and Ambassador Siti Mauludiah (Senior Advisor to the Foreign Minister) graced the event with their welcoming addresses, imparting their insights into the trajectory of Indonesia and ASEAN collective advancement.

Structured across four distinct segments, the summit commenced with a panel discussion focused on the growingly popular **Green** sector, followed by **Public Sector** and **Health**. The summit culminated with an exploration of the **Digital & Financial** industries through a panelist of esteemed professionals in the industry which includes Shinta Kamdani, Chairwoman of APINDO group.

GIPA also simultaneously hosted a parallel segment, which fostered a smaller and intimate discussion on specific industry topics ranging from startup culture, global investment trends, and gender disparity within the ASEAN workforce.

At the heart of this event lies an assembly of visionaries and luminaries who share a resolute conviction in augmenting human capital investment within Indonesia, all while accentuating the profound influence of a more refined workforce on national development. Following the warm reception of the summit, GIPA is set to engage in further in-depth consultations with senior government officials to offer insights into Indonesia's Diaspora Strategy in the subsequent day in a conference private from the public.

About THE REPORT

As we celebrate GIPA's **5-year milestone**, this report takes a comprehensive look at the successes of the 2023 Global Human Capital Summit and prepares the foundation for the upcoming 2024 Summit in Jakarta. Over the past five years, GIPA has established itself as a key platform for engaging Indonesia's diaspora community, fostering discussions that contribute to the nation's sovereignty and progress. This report serves to showcase the achievements of the 2023 Summit, illustrating its impact and the value it has brought to participants.

In addition to celebrating past successes, this report is designed to **equip stakeholders, potential participants, and GIPA members** with detailed insights into the demographics of the Summit's attendees. By analyzing who attended the Summit, including their career levels, affiliated companies, industries, and areas of interest, this report provides a transparent overview of the diverse individuals and groups that benefit from this annual gathering. Such data is crucial in understanding the reach and influence of the Summit, **helping us identify new demographic groups that can be engaged in future events.**

Moreover, by focusing on these key analytics—**attendees' career stages, their professional affiliations, and the segments they are most interested in**—we aim to offer a deeper understanding of the Summit's role in connecting professionals across various sectors. This information will not only inform the planning and strategy for the 2024 Global Human Capital Summit but also ensure that the event continues to grow in its relevance and impact, reaching new audiences and fostering greater collaboration within Indonesia's global community.

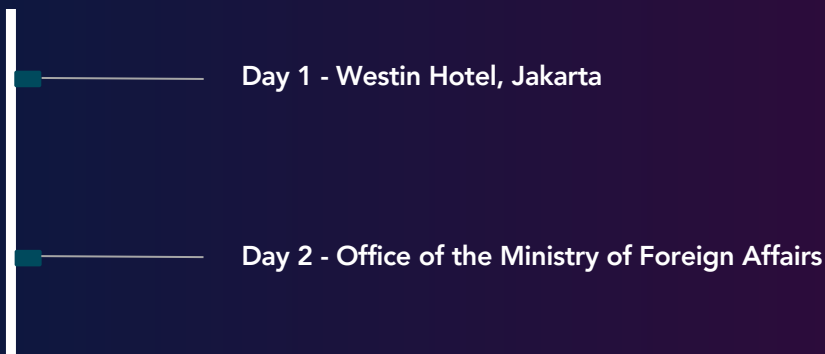

GIPA represents Indonesian professionals and executives working across G20 and ASEAN in eight key industry groups

For the past 5 years, we have conducted 48 events including 2 flagship Global Human Capital Summits. GHC Summit 2022 was conducted in collaboration with B20 Indonesia, and GHC 2023 was in conjunction with ASEAN Chairmanship.

SUMMARY

The summit attracted a diverse group of attendees, with a significant portion comprising **government staff from various Indonesian ministries, regional offices, and non-profit policy advocates**. This group forms the largest contingent at the event, highlighting the strong interest in supporting partnerships with the Indonesian diaspora. Following closely behind are representatives from **NGOs and youth organizations** dedicated to driving social and policy changes, including GIPA's community partners such as Indonesian Youth Diplomacy. Their presence underscores the summit's relevance to broader societal and policy-oriented initiatives currently underway in Indonesia.

Additionally, there is notable participation from **undergraduate students** and **professionals from consulting firms**, indicating the event's appeal to emerging leaders and experts in advisory roles. The technology sector, particularly in fintech and logistics, has also shown substantial interest. This diverse mix of participants emphasizes the summit's broad appeal and significance across various sectors, from government and policy to technology and education.

Regarding the segments hosted at the Summit, **'Green & Infrastructure'** leads as the segment garnering the most interest, followed by the segment on **'Public Sector.'** However, reception from participants across different segments has been fairly consistent, with only slight differences in numbers between the segments 'Green & Infrastructure,' 'Public Sector,' and 'Digital & Finance' as seen in the bar chart on page 7.

The Global Human Capital Summit primarily attracts individuals at mid-career levels, who make up 22.7% of the registered participants. Students follow closely, indicating the Summit's appeal to those in their early career stages.
